There is a danger from crinoline now that was not present when last hoop skirts were worn. How would a woman be able to avoid electric car tracks? An electrical expert says he might be shocked at any moment.

STUDENTS "AT HOME."

The Belleville Business College's Entrance Examination.

The "at home" given by the students of the Belleville Business College on Thursday night was, in every respect, a grand affair.

The interior of the large building was tastefully decorated for the occasion. Banquet, flags and Chinese lanterns were hung from the walls and suspended from the roof forming a beautiful effect. Invitations had been extended to some 500 persons, the great majority of whom were present. A large number of graduates were present; the chairman, Mr. A. G. Norbury, took the chair at 8 o'clock, the auditorium was filled. The programme was opened by a recitation by the O. P. Silver Band, which was finely rendered. The chairman gave a few remarks, congratulating the faculty and students upon the success which had attended their efforts, and he also referred to the work which was being done by the institution. An excellent programme was then carried out, consisting of recitations, by Miss Hudson, Miss Monte, Miss Hurlbut, vocal solos, by Miss Price and Miss Falconer; duet, by Messrs. Morrison and Emerson; bar solo, by the Misses Mills, and club singing, by Miss Holton. All of the participants rendered their parts without a fault. Suitable selections were also given at intervals by the band. The programme was a success, and refreshments were served, after which the evening was kept up for some time. The students of the Belleville Business College, namely the presenting of a handsome gold memento to the proprietor, Mr. R. R. Gough, and the presentation of a certificate to the students of the Belleville Business College, which was signed by the students of the Belleville Business College, and the presentation of a certificate to the students of the Belleville Business College, which was signed by the students of the Belleville Business College.

SHALL THE KENNEDY BE AP-
 PLED?

The spring overflow of the Meira, which has come to be looked for as an event of almost certain occurrence in every year, has been less destructive than was anticipated this season, and the people in general who the excitement has subsided, will return to their usual avocations and habits of life until the same date in 1894, when the time for the breaking up of the ice is once more at hand. Such has been the practice for more than a generation—since 1865, when the first flood of much consequence in many years, occurred; but the time has come for a change in this respect.

The neglect and inefficiency of past years led to serious consequences. Property in the lower part of what is now Murray Ward—and a majority of the owners of it were poor men who owned their humble dwellings—was rendered almost valueless because of the annual inundations, and it is not too much to say that, in addition to the material loss thus inflicted, the seeds of disease and death were sown by the encroaching waters, and that numerous households have to mourn the loss of loved ones as the direct consequence of the spring floods.

However, with the placing of harbor affairs in the hands of able and public-spirited citizens as Harbor Commissioners, we have this year seen the gratifying result of intelligent effort. That the embankment of Coleman street moved the often afflicted district from a calamity not less severe than any which has as yet taken place, no intelligent person who is acquainted with the locality can doubt. And yet, whilst the labor of the Harbor Commission has had a most gratifying result, it cannot be denied that more is needed—that, in a word, the usual annoyance and loss experienced by merchants and others from the flooding of their premises shall be done away with for all time to come. That such an object is comparatively easy of attainment is alleged on no less authority than that of Mr. Howden, the Government engineer, who was here a few days ago, as was reported in these columns, at the instance of Mr. Henry Corby, M.P., whose opinion in behalf of his constituents seems trustworthy. Mr. Howden is especially fitted to speak on this subject, not only by reason of his scientific attainments, but because of his practical experience on the river Richelieu, in Quebec, which much resembles our own Meira in its habits and in the annual break up of the ice in the spring. Mr. Howden brushes the new idea of holding back the ice at such short distance from the city as to render impossible the formation of such huge jams as have in the past blocked the debouchure of the river, and to offset this purpose he proposes the simple expedient of planting piers in still water in a locality to be chosen. The cost of this project he places, we believe, at about \$1,200.

This is the best and most economical method of relieving Belleville from damage from floods appears to be so clear that we hope the City Council will at once take the matter into consideration. The expense is a mere bagatelle in comparison with the benefit to be derived from it. In fact, the scheme once adopted, the loss of property, would meet it in the course of a year or two.

If You Want One, Hurry.
 Spring weather is a little late this year, but never before in the history of the Meira has we said so many light frosts as early in the season. In fact, our 800 have held so far that we have been unable to keep all the size in stock. Those customers who have been waiting for us to receive a further supply of these coats, we would like to see at once, as another supply arrived Saturday morning. Hurry, if you want one, as this lot will not last long.

News About Town.

A Pleasant Herd Drink.
 The best cure you know of for Constipation and Headache is the pleasant herd drink called Laxa's Family medicine. It is said to be the Oregon grape root, combined with simple herbs, and is made for use by pouring boiling water into the bottle and stirring. It is remarkably efficacious in all blood disorders, and is now the sovereign sign ready with for clearing up the complexion. Druggists sell the packages 50c and 10c.

The Pharmacy Act.
 The Pharmacy Act, which has been passed in England, is a very important one, and will have a great effect on the practice of pharmacy in this country. It will require all pharmacists to be registered, and will also require them to keep a record of all the medicines they dispense. This will be a great benefit to the public, as it will ensure that all the medicines they receive are of good quality and are properly dispensed.

It is not too much to say that, in addition to the material loss thus inflicted, the seeds of disease and death were sown by the encroaching waters, and that numerous households have to mourn the loss of loved ones as the direct consequence of the spring floods.

WELCOME HOME.
 Miss Gordon recently welcomed on her Meira, the new idea of holding back the ice at such short distance from the city as to render impossible the formation of such huge jams as have in the past blocked the debouchure of the river, and to offset this purpose he proposes the simple expedient of planting piers in still water in a locality to be chosen.

HONORS FOR BISMARCK.
 GIVEN AN OVATION ON HIS 78TH BIRTHDAY.
 Berlin, April 2.—Saturday was the 78th anniversary of the birth of Prince Bismarck, and a number of the Berlin newspapers published special articles. The National Zeitung published a long article on the life of the great statesman, and all the other papers published similar articles. The Prince was born on March 1st, 1815, in the town of Schlegel, in the Province of Pomerania. He was a member of the Prussian House of Representatives, and was one of the most powerful statesmen of the 19th century.

Special Mention.
 COUGHING LEADS TO CONSUMPTION.—A person who coughs at night, or who has a cough which is not cured by the usual remedies, should be careful. It may be a sign of consumption, and it is important to get it cured as soon as possible. There are many remedies for coughs, but the best is the one that cures the cause of the cough. If you have a cough, you should see a doctor at once.

"It is the last thing I should ever have thought of doing," said the man with grave dignity. "He never knew that you wrote it—never saw it—never will see it or know it from me."

"Do you mean that you have kept it to yourself all these years?"

"I mean that I put it in the fire as soon as I had read it. Why are you so concerned about it? Was it worse than others that you must have written—before I wrote it to him?"

"I never wrote to him before."

"They found each other with mutual suspicion in their eyes. Lady Alice had given her proud reserve. She wanted to know the truth at last."

"I will acknowledge, she said, that I believe you had written other letters of a somewhat similar kind."

YESTERDAY'S HURRICANE.

THE WILDEST WIND STORM KNOWN FOR MANY YEARS.

The ice at Ferry Point driven upon the beach—Wrecked Tammage Street with a falling Board and Mattered Ocean.

One of the most terrific hurricanes which has swept over this part of the country in many years, visited Belleville yesterday afternoon, and continued with unabated force until late in the night. A stiff breeze all day intensified in force during the afternoon, and by five o'clock the wind was blowing everything before it. Strong men were carried off their feet, and in some cases injured. A piece of wood, which had been lying on the ground, was blown into the air, and broke in two. The force was not broken in its fall, would have had fatal force, had it not been for the building and the wind.

The force of the wind drove the ice out of the harbor as far out as Rishman's dock, while at Ferry Point huge blocks of ice were driven up on the beach.

The Reaver, Monitor, Outlet Gun, and Starling, were unable to leave their moorings along the island, and move across the water. Had the ice been less thick, to-day would have seen the opening of navigation on the bay. The ice is all very much on Big Bay, where a bear was seen to cross yesterday. There are no indications of its breaking up for some weeks. The telegraph line to Marquette was damaged by the wind, and the line to the city was badly mixed up. The sky light in J. W. Dunnet's building was seen in the night.

"CONTINENTAL UNION."

The Disagreement Concerned by the Sons of England.

The following resolution was passed at the regular meeting of the Sons of England, held at the Hotel de Ville, on Monday night, April 4th, 1893:

Resolved, that we, as loyal British subjects and Canadians, hereby renew our devotion to the throne of Great Britain, and send a solemn protest against the action of some of our own citizens, who under the cloak of continental union propose to form a party of division, disloyalty, and disunity in our midst; by introducing upon the public platform some of the most notorious and unscrupulous characters of the day.

We consider their action detrimental to the best interests of the country at large, and only calculated to bring about a general and complete disunity in this section; and we earnestly ask the co-operation of all loyal Canadians to stop in the best this primary attempt to disseminate treason in this section of the Dominion.

MANUFACTURERS' NOTES.

All Our Leading Industries Busy and Prosperous.

The Brown Manufacturing Co. has seven contracts for bridges, but are delayed in their operations, by early arrival of material.

The contracts which the St. Charles Quinlan Co. secured for 30 street cars for Montreal and 40 for Toronto have afforded employment for a large number of men. The work has been sub-divided and is being done in Prince's, Harris & Watson and Alfred & Co.'s shops.

The iron work is being executed by the Brown Mfg. Co., and the painting is in progress at the latter buildings. It is curious, but nevertheless true, that some of the good used in the construction of these cars has to be imported from the States into this wooden country, namely, ash for the frame, etc., and cedar, pine for the frame.

Geo. S. Tickle & Sons are very busy, employing 40 hands and turning out large quantities of fine furniture, which finds a market from Windsor to Halifax. Much of the hard wood which they use is procured in our own country.

W. W. Chown finds his enterprise of manufacturing dairy supplies and piece ware a success. He now employs some 25 hands.

The Mack Mfg. Co. have made a start with the manufacture of the furniture of their important industry.

Mr. W. H. Lott, woollen manufacturer, has moved into his new premises, and is shortly removing into new and larger premises immediately adjoining the old stand. The Lott & Lott's pottery has done more than usually good trade this season and is still doing an average business. The same may be said of Finnegan's carriage and wagon factory.

Lingham's and Cooper's grist mills have been run steadily to their full capacity. The Walker Foundry Co. have had a brisk run on mill work and on Drak's small and shingle machinery, which is sold all over the Dominion. They have about fifty hands at work.

Mr. Geo. B. Brown has built two carriages to an order from Jamaica and is doing a good business in carriages. Mr. Brown has an order from Quebec for four fine plated carriages for the British Empire.

The St. Charles Co. are busy with their ordinary lines, as well as in connection with the street car contracts. They have a strong force of men at work.

The Ashley Carriage Co. have had an order for a number of carriages, and are doing a good business. They have a strong force of men at work.

Harris & Watson will within a few days commence the factory work for the new boat.

Graham's big sawing plant and the sawing factory are very quiet at present. They had, as has been learned, proposed a season last year that the output of both will be largely increased this season.

LINGHAM'S BRICK YARD.

For upwards of twenty years Mr. Nelson Lingham has carried on the manufacture of bricks on the front of Thelwell, a short distance beyond the limits of the city. Indeed, that the business may fairly be considered one of Belleville's industries, and the more especially as the proprietor and many of his employees are residents of the city and their earnings are spent amongst the business men of Belleville.

Mr. Lingham has two brick yards, of which one is operated by steam and the other by horse power. He usually gives employment, during the building season, to from 60 to 70 men and 5 or 6 teams. His business is valued at about \$100,000 per annum, and he has a large stock of bricks on hand.

Mr. Lingham is a man of high character and high standing in the community. He is a member of the St. Charles Co., and is a very successful business man. He has a large family, and is a very kind and generous man.

GLEAN OFFICE SALE OF BANKRUPT STOCK OF CLOTHING!

A wholesale manufacturer's stock bought at 57c. on the dollar to be slaughtered. We have always got our argus eye open for these snags, and now never in Canada has such a chance been offered to secure a suit so cheap, and other dealers should take advantage of it, as we are going to sell them away below wholesale prices. Remember this is no humbug and will create the biggest sensation among clothing men, Belleville has ever experienced. Read the list:—

1,000	Children's 2 piece suits for 75c. worth \$3.00.
1,000	Boys' 3 " " \$1.50 " 4.50.
1,500	Youth's " " \$2.50 " 5.00.
1,200	Men's " " \$2.75 " 8.00.

Stacks of men's and boys' knock-about hats for 20c. each. Sold all over for 50c. 3, 40c ties for 25c. Remember only 25c for the \$1.20c worth; 2 pairs of socks 5c; braces 10c; in a word a stock of \$30.00 at prices that have no parallel in Canada. Parents and heads of families should make their purchases from Gough, because he buys cheaper and sells cheaper than any man on earth, and cheerfully refunds the money if goods are not as represented. Patronize the man who puts down the prices and keeps them down. Remember we ask no favors, our benefit is your benefit.

Daily Intelligence.

BELEVEILLE, THURSDAY APRIL 13.
DALTON MCCARTHY'S POSITION.

In other columns will be found a full report of Mr. Dalton McCarthy's speech in Toronto last night. We can but regret that a gentleman of undoubted ability, such as Mr. McCarthy, should run counter to the principles of liberty and toleration in matters of religion which have at all times been inculcated by the Conservative party, and upon which alone our young nation could be built up. Mr. McCarthy was long a supporter of those principles; he will find that his desertion from them at this late day will neither bring him success in the political arena nor the approval of the people.

IS IT A QUESTION OF THE PEOPLE?

St. Oliver Mowat's reply to Mr. Meredith at a sitting of the present session, that the people did not think they were unfit to hold office, requires some explanation in the face of the dishonest ballot act, under which members are elected to the Legislature. No man person can at a moment's notice be elected to the Legislature in Ontario is not retained to corrupt and intimidate a large portion of the electors, and it requires a great deal of gall for Sir Oliver to assume on the public intelligence in the face of the dishonest rigging of his satellites at local elections. The people of this district know, by experience, of the ruffianism practiced upon them to prevent an honest expression of the polls. The Conservative party at midnight, followed by coon skin coats lined with hooded exteriors from provincial office holders and hotel keepers, are not very strong evidence that the people are burning with enthusiasm to retain in power the Mowat Government.

For any case of rheumatism, STRENGTHENING, weak stomach, indigestion, dyspepsia, try Carter's Little Liver Pills. Relief is sure. The only true liver medicine for the price in the market.

DO NOT DESPAIR OF CURE YOUR OWN HEADACHE when you can so easily obtain Carter's Little Liver Pills. All ailments of the liver, followed by coon skin coats lined with hooded exteriors from provincial office holders and hotel keepers, are not very strong evidence that the people are burning with enthusiasm to retain in power the Mowat Government.

The examinations in the faculty of arts of Toronto University will commence on Thursday evening on Monday, May 1st. There are this year 77 applicants for admission, divided as follows: Fourth year, 131; third year, 140; second year, 231; first year, 247. Eggs being down 10 cents a dozen, remarks an exchange, every diligent old hen in the country is wearing herself out in efforts to fill baskets. Not the same old hens at around like eggs are 20c a dozen. Seems to be a big operation for proper education.

—Vandell has been carried by Mr. Henry Harwood, Liberal, by a majority of 63. Mr. J. A. Cheverly's friends made a splendid fight. The present member-elect carried the county at the general elections of 1891 by 60 and being unseated, was beaten by Mr. Hugh McMillan, Conservative, whose majority was 35.

One English judge has held that if a woman spends her own money on a trip necessary to her household, it is not to be regarded as money advanced to her husband. In the absence of a definite engagement to repay it on his part. Another holds that if husband and wife invest money made by him in their joint business in their joint names, the husband alone may sue the income as he pleases.

Did you ever notice that the days of the month and week are always the same in March and November, in April and July, that if it March comes on Monday November will fall on the same day, the same rule applying to the other named months. In May and June with March and November. The last day of February and the fourth day of July always come on the same day of the week, the same is true of the 24th of May and Christmas.

The Greatest Yet.
One of the greatest discoveries ever made in the medical line for the cure of scald disease and dandruff, is now getting introduced into the household, and the cure by the drug trade. There is nothing more than a scurvy scalp, and nothing more dangerous than scald disease and dandruff, than one that has been offered from time to time to put this oil, but without effect. A specialist—one of the world's greatest doctors, who has been successful in discovering Dandruff, which is now on sale everywhere, is now getting introduced into the household, and the cure by the drug trade. There is nothing more than a scurvy scalp, and nothing more dangerous than scald disease and dandruff, than one that has been offered from time to time to put this oil, but without effect.

Corn Sowing.
Is a process conducted by the agency of light boots all the year round. Corn sowing is best secured through the agency of Rouman's Patent Corn Extractor, the only safe and sure way of sowing corn. Beware of all poisonous and more poisonous seedlings; they are dangerous to use and are sold simply because they afford the dealer larger profits.

CITY ENGINEER'S REPORT.

He Wants the City to Buy a Stone Crusher—A Wall on the River From Brown's Foundry to the River—He Wants a Railroad Bridge for the Bank Hill.

City Engineer Hume at the City Council on Monday presented his annual report on the work of the City Engineer, which covers an area of thirty miles of roadway and forty-four miles of sidewalks. The Engineer proposes in his report to construct a wall on the north side of the river street at the Bank of Montreal, at a cost of \$3,000. The report continues: "I cannot too strongly urge the necessity of building a sidewalk in a strong and substantial manner. I still adhere to the principle of using a stone for setting lumber. It will be necessary this year to construct a new wall on the north side of the river street at the Bank of Montreal. I have only to repeat my former suggestion that the wall should be built with a 24-inch board, 2 1/2 inch apart and an excavation made underneath connected with the Hotel street drain at the corner of the wall. The bank to the opposite side of the street should be cleared up and rip-rapped. East of the corner of the street between Ouellet and Murray, will require a thorough overhauling. I suggest that the Council grant a sum of money for buying South Guelph at as low a price as possible. I still maintain that this permanent embankment from the foot bridge to James street will forever prevent the inundation of West Belleville. I recommend that permanent stone crossings be built on the principal thoroughfares instead of plank. I would also suggest the advisability of the corporation securing a good stone quarry. Some effort should be made to secure a gravel pit, for it costs at present 80c. a yard to get gravel from the country. Five new street lights are absolutely necessary on Front Street. With reference to the stone wall from Brown's Foundry to Mr. Hall's residence on the river, I would suggest that a 24-inch wall be built with strong backing, on the level of the sidewalk; that the outer edge of the sidewalk be laid on the wall, and the small wooden hand railing be built thereon. It will be necessary to take action in this matter at once. I estimate the cost to be \$1,200. I am frequently in want of 10-inch culverts, and would suggest that a culvert be bought. The ditch on the north side of Bridge Street between Everett and Guelph streets, which with the ditch on each side of Pinnacle Street north of the O.T.R. crossing. The Catherine St. drain must be properly cleaned out before you. My estimate for this work is on file. The by-law in reference to boardwalks should be passed, as this will be necessary cleaning of the ditches and road sides. A rock-crusher should be purchased by the city at a cost of \$10,000. Last year \$300 for cracking 170 cords of stone. This machine can be run at a cost of \$10 or \$12 a day, at the rate about 100 cords a day. The building of sewer connection on Front at Hotel St. to the river has been reported upon the Board of Health. The sewer drain will be necessary to require action. I would advise that the owner of the building on No. 25 West Guelph be requested to underlain and fill the same in and that the city construct a ten-inch pipe drain along Guelph and Ryan streets to the culvert on Guelph St. A drain from the junction of Queen and Bleeker avenue should be extended to the bay. I would suggest that the lumber be put in a year in advance; seasoned lumber lasts longer and can be had cheaper when the saw mills are running. The water tanks on Hotel, Ann, Church and Ryan streets are in a bad condition. Estimates for the year \$3,122.00, which could be reduced by \$277.14 with a stone crusher.

R. C. UNIONISTS.

Irishmen Who are Truly Patriotic—They Prefer British Rule to the Anarchy Which Will Follow Gladstone's Bill.

Last summer, after the general elections in the United Kingdom, we gave data and some leading to show that on the whole the Roman Catholics of Ireland were not opposed to home rule, and, on the other hand, in the west and south there were Roman Catholics of influence who opposed the movement for reasons which they considered sound. Since then the Irish Unionist Catholics have done something towards organization on a basis distinct from that of their fellow Unionists of the Protestant faith in Ireland. A few weeks ago a manifesto was drawn up and signed by a number of representative Irish laymen of the Church of Rome, which was designed to show that, while deprecating certain anti-Catholic intonations elicited by the heat of controversy, the signatories are, so far as their objections rest on secular considerations, heartily in accord with the Protestant Unionists. It is also noteworthy that these representative Catholics of Ireland express their conviction that home rule, if imposed on their country, would be fostering a revolutionary spirit likely to prove a thorough overhauling of the religion which they profess. This view of the movement, although it has as yet escaped the notice of the outside world, has been observed by the intimate friends of the Irish clergy with the home rule leaders. The manifesto calls upon the Catholics of Ireland to unite with the Protestants in their opposition to the movement, and to remove the false impression that the content is one between a Roman Catholic majority and a Protestant minority. The petition which they are invited to sign is addressed to the House of Commons from the Roman Catholics of Ireland, and it goes to show that the petitioners maintain unshaken allegiance and devotion to the Crown and constitution under which they live in the enjoyment of full civil and religious liberty; that they regard the maintenance of the union as a necessary safeguard of that liberty, and believe that the proposed introduction of home rule will be prejudicial to the Catholic religion and disservice to the best interests of the country. This is a vigorous condemnation of the measure as a Protestant manifesto could offer. The signatories are headed by the Earl of Fingall, who, it may be recalled, presided some months ago over a general meeting of the Unionists. Other signatories are Lord Kenmare, Dr. Freyne and Westmeath, Louth, Emily, Count de la Force, D.L., Sir Henry Graham, Bellow, Bart., Sir Stephen de Vere, Bart., Sir Percy Grace, Bart., Mr. Daniel O'Connell, D.L., Mr. McManus, O'Connell, Bart., Mr. Edmund Dease, D.L., Colonel Gerard Dease, and a number of others, country gentlemen, many of them gentlemen of professional and business men, representing nearly every county in the east, west, north and south of Ireland. It is worthy of mention that with the exception of Lord Emily and Lord De Freyne, the noblemen who have signed the manifesto, some of them several centuries before the Union. Sir Martin O'Connell, on the other hand, whose name appears on this manifesto, is a nephew of the great chieftain of Kesh, and thus the close change and people change with the times. Just about the same time that the Roman Catholic of Ireland were thus uniting in protest against Mr. Gladstone's policy, the Protestants, both clergy and lay, were holding meetings to protest against it for other reasons. A special conference of the Irish Church synod was held under the presidency of the Primate, at which the announcement was made that out of 1,229 parishes, 1,114 had formerly protested against the bill. A Unionist demonstration of Protestant laymen took place at Waterford which was largely attended, and the result was a resolution to add to the list of the signatories of the manifesto. On the whole the opposition to the bill is well shown by the number of the signatories of what is most influential in the land holding, professional, commercial, industrial and political ranks of Ireland, both north and south.

GREAT SACRIFICE SALE

OF
BANKRUPT STOCK OF CLOTHING!
A wholesale manufacturer's stock bought at 57c. on the dollar to be slaughtered. We have always got our argus eye open for these snaps, and now never in Canada has such a chance been offered to secure a suit so cheap, and other dealers should take advantage of it, as we are going to sell them away below wholesale prices. Remember this is no humbug and will create the biggest sensation among clothing men Belleville has ever experienced. Read the list:—

Stacks of men's and boy's knock-about hats for 20c. each.

over for 50c. 3, 40c ties for 25c. Remember only 25c for the \$1.20 worth; 2 pairs of socks 5c; braces 10c; in a word a stock of \$30,000 at prices that have no parallel in Canada. Parents and heads of families should make their purchases from Gough, because he buys cheaper and sells cheaper than any man on earth, and cheerfully refunds the money if goods are not as represented. Patronize the man who puts down the prices and keeps them down. Remember we ask no favors, our benefit is your benefit.

ST. GEORGE'S DAY.

OXFORD LODGE, O. E. ATTEND HOLYDAY ST. GEORGE'S CHURCH.

A Good Temperance & Large Congregation.

Excellent Music and a Grand Patriotic Sermon.

Oxford Lodge Sons of England honored

the memory of England's patriot saint by attending district services

at the Methodist Church, St. George's Day.

The brethren assembled at their lodge room at 10.30 a.m., and

accompanied by the "Lafayette" Military

band, marched up Bridge street to Duane

street, and thence to the church. The

pastor, Rev. T. J. Edmond, M.D., preached

an eloquent sermon.

After the religious services a hearty

welcome was given by the pastor on behalf

of the officers, members and friends of the

St. George's Church, Oxford Lodge No. 17, Sons of England Benevolent

Society. He expressed appreciation of the

principles and work of the Order, and said

he was pleased to bear testimony, from

personal knowledge, that during the past

winter the society had shown tangible ex-

pression to their benevolence in ministering

to the poor, and in his work in his home

with his wife and children, and he had his

hopes, who has said, "Inasmuch as you

have done it unto one of the least of these

my brethren, you have done it unto Me."

The speaker then made a few allusions

reference to St. George's Day. St. George

was born of noble parents; noble not only

in his life, but in his death. He was a

character. From his parents he received

early and careful religious training, which

became so firm in his mind, that he was

integrity of character, afterwards showed

not only in his life, but in his death. He

chose the life of a soldier, he advanced

rapidly to his military distinction. When

the Emperor Diocletian openly showed his

equity against Christianity, this young

Christian commissioned officer sought a

private interview with him. During this

interview Saint George strongly remon-

strated against the persecution of the Chris-

tians, and then resigned his military com-

mission. Like Moses, he chose "rather to

suffer affliction with the people of God

than enjoy the pleasures of sin for a sea-

son," esteeming the reproach of Christ

greater riches than his military position

and the favor of the Emperor. He was at

once put under arrest, and after severe and

prolonged tortures, was put to death on

April 23rd, 303, 1,000 years ago this

day.

The speaker then drew attention to Heb.

11, 15.—speaking of the circumstance

under which the Epistle was written, and

its design, and gave an epitome of the

text, in which the difficult words and

phrases were explained, and put into

practical application. He then said, "He

came to die. He died to destroy the

works of the devil. He is no longer to

the true Christian, a tyrant to be dreaded

but a slave of whom the believer, through

Christ, is the master. The curse is turned

1st Timothy 1:7. "The Catholic Faith,"

Mr. G. S. Burton (Bartons), son of Judge

Miss Nettie Parent, of Trenton, sang in

St. Michael's Church last night. Her solo

was entitled, "Ave Maria," by Herr

Millard. Miss Parent possesses a very fine

voice, which she uses with extremely good

judgment and taste. The choir, under the

direction of Mr. Dwyer, rendered Willie's

well-known mass in C in the morning.

This was the last attendance at St. Thom-

The services in the morning were opened

by Philip Phillips 11:15. During the ear-

lier part of the service the general theme

was "The Catholic Faith." He was com-

missioned to the church, but returning in a

few minutes continued the service to the

end. In the evening Mr. Spencer, of

Kingston, officiated.

At Bridge St., Rev. Mr. Baker was the

preacher both morning and evening; at the

first service he took as his text: "But we

have this treasure in earthen vessels, that

the excellency of the power may be of God

and not of us," 2 Cor. 4:7. "At his request

the leading idea of the sermon was, that love

of Christ must be paramount, and that

His will must be given up. Senator

METCALF VS. TIFFANY. REDISTRIBUTING WARDS.

A CASE OF MUCH LOCAL INTEREST AT DESERONTO.

Mrs. Dr. W. M. Metcalf, formerly of Sidney, and Mrs. Tiffany, formerly of Belleville, are the parties in a case of much local interest at Deseronto. The case is the result of a dispute over the redistribution of wards.

DESERONTO, April 28.—A case involving a dispute over the redistribution of wards in the City of Deseronto, was heard by Judge Gurney.

It was begun by Mrs. Dr. W. M. Metcalf, who asked for the sum mentioned in the will of her late husband, Dr. W. M. Metcalf.

Metcalf testified that she and the doctor were married in the township of Sidney, Ontario, in the year 1885.

Shortly after the couple came to Deseronto and took up their residence with Mrs. Tiffany.

After coming here Mrs. Metcalf noticed that Dr. Metcalf gradually growing old toward

her, and she began to feel that it was

warming toward the widow. The doctor

and Mrs. Tiffany frequently went driving

together, leaving the doctor's home, and

Mrs. Tiffany presented the young man with

several articles as tokens of her affection.

Mrs. Metcalf alleged all these delicate at

least her husband by Mrs. Tiffany.

For the purpose of winning him away

from his wife, and many unpleasant scenes

occurred between the two. Finally, in

September, 1888, the doctor procured an

order of the court to separate him from

his wife, and the sum of \$2,000 and certain

personal goods, which he took with him to

Belleville to support her thereafter. Mrs.

Metcalf said, when this proposition was

made to her she hesitated, but, having no

friends to advise her, finally consented.

After the sum of money was received, the

doctor returned to Canada, while the

doctor retained his office and residence in

Mrs. Tiffany gave her evidence to-day,

and, among other things, said Mrs. Metcalf

and groves jealous of her. Tiffany by the

time they had boarded together six months,

and had been watching through registers

and other peep holes for evidence that

would confirm her suspicions. One night

the doctor and the two women had been

listening to the piano when Mrs. Metcalf

excused herself on the plea of a headache,

and went into her room. Shortly after-

wards Mrs. Tiffany also excused and started

for her room, when the doctor jumped up

and throwing a blanket over himself, he

kissed her. At the same moment the

bedroom door opened and Mrs. Metcalf

jumped into the room. Mrs. Tiffany

passed on upstairs to her own room. Two minutes later

the doctor went to the head of the stairs,

and calling her, apologized for kissing her,

saying he knew his wife was watching him.

Her want of confidence in him, and his

want of confidence in her, were enough to

him that he kissed Mrs. Tiffany for the

purpose of teaching his wife a lesson. The

doctor and his wife quarrelled all night

over the incident, and these quarrels, which

waxed in bitterness, were kept up until the

doctor died. Mrs. Tiffany gave the reason

for giving the doctor a gold watch. She

had been in poor health for a long

time, and the doctor had treated her, but

had refused to receive any pay for his

services. The case will probably run along for two

or three days yet.
